Shifting to Zero

FRIENDS,

Kansas Statewide Homeless Coalition believes homelessness is solvable. We have joined the Built for Zero movement, along with communities across the nation to reduce homelessness for entire populations and to ensure racially equitable systems. Built for Zero is a proven, effective program that assists communities in ending homelessness. We believe homelessness can be solved in Kansas, but we need your help! It takes a village to implement this kind of change, and we know that it will take all of us to find a solution that works for Kansas. We invite you to show your support for our mission by sponsoring the Summit.

The Summit will be held on April 23-24 at the Double Tree by Hilton, in Lawrence KS. The Summit's theme will be Shifting to Zero and will focus on understanding the Built for Zero movement, touring some of Lawrence's housing options and learning from other Kansas' housing and service providers. Also, we will look to the sky to see the 2024 afternoon solar eclipse!
